

Starting from the **Refuge Lambertenghi - Romanin**, descend at 1955m to the south in Italian territory, keeping on the south-west of **Mont Coglian** and follow trail 145.

Continuing to climb, follow the path until you get at around 2000m altitude where the path becomes less steep and then descends to the **Pic Chiadin** (2303m).

Continue to decline around the **Pic Chiadin** briefly on the south side to reach the Rifugio Marinelli (2111m).
